

EXP1803 - Developing #196

Post-production measurements

05/24/2018 04:38 PM - Vratislav Chudoba

Status:	Открыта	Start date:	05/24/2018
Priority:	Высокий	Due date:	
Assignee:		% Done:	33%
Category:	Measurement	Estimated time:	0.00 hour
Target version:			
Description			
There are some measurements of various detectors parameters which should be performed after main experimental run. This task will be updated by particular subtasks as needed.			
Subtasks:			
Developing # 197: Measurement of thickness of thin silicon detector			Открыта
Analyzing # 198: Determination of thickness inhomogeneity of thin silicon detector			Закрыта
Analyzing # 199: Determination of positions of silicone detectors			Открыта
