

EXP1904: Reference reaction - Developing #418

Analyzing # 397 (Открыта): Variation of the parameters

thin detector thickness variation

01/17/2020 10:10 AM - Ivan Muzalevsky

Status:	Открыта	Start date:	01/17/2020

Target version:			

Description

Vary the thin detectors thickness within a reasonable range and report the effect on position of the peak corresponding to population of the ^9Li g.s.

thin Detector thickness [%]	^9Li g.s. position 1 Tel [MeV]	^9Li g.s. position 2 Tel [MeV]	^9Li g.s. position 3 Tel [MeV]	^9Li g.s. position 4 Tel [MeV]
