EXP1904: Reference reaction																																		
Reference reaction: Data analysis																																		
Beam of 10Be																																		
Particle identification from ToF																																		
Beam energy																																		
Profile of the 10Be beam																																		
Estimation of beam intensity from (...)																																		
Beam integral																																		
Estimation of the 10Be beam trigger (...)																																		
Target position estimation																																		
Missing mass of 9Li from 3He registered (...)																																		
Fixation of parameters related to experimental (...)																																		
Emission angle of 3He																																		
Variation of the parameters																																		
Target thickness																																		
Z-position of the side telescopes																																		
Offsets of the 3He telescope																																		
BeamDet thickness																																		
thin detector thickness variation																																		
Effect of rime growing on target surface																																		
Reference reaction: Simulations																																		
Decayer for the 10Be beam
