EXP1904: Reference reaction																									
Reference reaction: Data analysis																									
Beam of 10Be																									
Particle identification from ToF																									
Beam energy																									
Profile of the 10Be beam																									
Estimation of beam intensity from (...)																									
Beam integral																									
Estimation of the 10Be beam trigger (...)																									
Target position estimation																									
Missing mass of 9Li from 3He registered (...)																									
Fixation of parameters related to experimental (...)																									
Emission angle of 3He																									
Variation of the parameters																									
Target thickness																									
Z-position of the side telescopes																									
Offsets of the 3He telescope																									
BeamDet thickness																									
thin detector thickness variation																									
Effect of rime growing on target surface																									
Reference reaction: Simulations																									
Decayer for the 10Be beam
