EXP1904: Reference reaction																																			
Reference reaction: Data analysis																																			
Beam of 10Be																																			
Particle identification from ToF																																			
Beam energy																																			
Profile of the 10Be beam																																			
Estimation of beam intensity from (...)																																			
Beam integral																																			
Estimation of the 10Be beam trigger (...)																																			
Target position estimation																																			
Missing mass of 9Li from 3He registered (...)																																			
Fixation of parameters related to experimental (...)																																			
Emission angle of 3He																																			
Variation of the parameters																																			
Target thickness																																			
Z-position of the side telescopes																																			
Offsets of the 3He telescope																																			
BeamDet thickness																																			
thin detector thickness variation																																			
Effect of rime growing on target surface																																			
Reference reaction: Simulations																																			
Decayer for the 10Be beam
