EXP1904: Reference reaction																										
Reference reaction: Data analysis																										
Beam of 10Be																										
Particle identification from ToF																										
Beam energy																										
Profile of the 10Be beam																										
Estimation of beam intensity from (...)																										
Beam integral																										
Estimation of the 10Be beam trigger (...)																										
Target position estimation																										
Missing mass of 9Li from 3He registered (...)																										
Fixation of parameters related to experimental (...)																										
Emission angle of 3He																										
Variation of the parameters																										
Target thickness																										
Z-position of the side telescopes																										
Offsets of the 3He telescope																										
BeamDet thickness																										
thin detector thickness variation																										
Effect of rime growing on target surface																										
Reference reaction: Simulations																										
Decayer for the 10Be beam
