EXP1904: Reference reaction																														
Reference reaction: Data analysis																														
Beam of 10Be																														
Particle identification from ToF																														
Beam energy																														
Profile of the 10Be beam																														
Estimation of beam intensity from (...)																														
Beam integral																														
Estimation of the 10Be beam trigger (...)																														
Target position estimation																														
Missing mass of 9Li from 3He registered (...)																														
Fixation of parameters related to experimental (...)																														
Emission angle of 3He																														
Variation of the parameters																														
Target thickness																														
Z-position of the side telescopes																														
Offsets of the 3He telescope																														
BeamDet thickness																														
thin detector thickness variation																														
Effect of rime growing on target surface																														
Reference reaction: Simulations																														
Decayer for the 10Be beam
